17 - THE COURSE: Please comment on course content, requirement or any other aspect of the course.	
Response Rate	2/15 (13.33%)

• Written exams feel out of place as we are encouraged to use the compiler to help us find errors in our code. Some labs feel impossible to finish within 1 lab period, which causes difficulty for commuting students. I would've liked to have seen a creative project where we can write any sort of code we want.

• This is a challenging course and without any previous computer science knowledge you will be fighting an uphill battle. I spent hours outside of the classroom in the computer lab, but I still believe that this class is fair. A student will only do as well as the effort they are willing to put into this course.

18 - THE INSTRUCTOR: Please comment on the strengths and weaknesses of Supraja Gurajala. Would you take another course from this instructor? -	
Response Rate	2/15 (13.33%)

• The professor doesnt care about the performance.She just dictates all what is meant to be told and thats all.Even if there is a very poor progress in the whole class she moves on with it

• Dr. Gurajala was always willing to help and even nice enough to offer extensions on assignments if needed. Like I said in the previous section, a student is only going to get what they put in for this course. Dr. Gurjala is beyond fair when it comes down to it. She wants her students to succeed in the class but can only do so much if the students are not engaged or meeting for office hours for help. I never once was denied an extension or help on an assignment I was struggling with.
